LUMOTAST 16

Flat. Reliable. Flexible.

www.rafi.de

RAFI

A CLEAR SIGNAL

LUMOTAST 16 – FLAT. RELIABLE. FLEXIBLE.

Space for pushbuttons and switches is limited on many devices – especially when they must be both handy and user-friendly. This has previously led to compromises in this area – in terms of the design or quality. That's why we developed the LUMOTAST 16.

The new single pushbutton series, consisting of a pushbutton and emergency stop, is designed primarily for use in applications such as equipment manufacturing and hand-held terminals. This space-saving component family is equally impressive at the front and at the rear.

PUSHBUTTONS

The built-in tactile switches offer crisp feedback. Special, first-class switching behavior is achieved, combined with full area illumination. Our illuminated pushbuttons can be labeled to suit any application by the manufacturer or customer.

EMERGENCY STOP

The LUMOTAST 16 emergency stop variant reliably brings machines and equipment to a standstill. With its attractive design, the LUMOTAST 16 is a real eye-catcher.

For hand-held devices, the trend is towards wireless solutions with a radio connection to the machine. The emergency stop buttons used here must offer special functions, such as our special "active/inactive" emergency stop variant – an innovation with a signaling effect. Precisely matched to the applicable safety standards, this special emergency stop not only increases safety, but also convenience. Our "active/inactive" variant only switches if the device is connected to the machine. To avoid confusion, the translucent special variant lights up red when active. The hard-wired emergency stop on the machine or system is not affected by this.

YOUR BENEFITS AT A GLANCE:

➔ Product range with a wide variety of possible applications and uses in industry
➔ Standardized mounting hole diameter 16.2 mm
➔ Mounting depth just 18.0 mm
➔ Very compact, flat design – from the front
➔ Flexible and simple labeling options
➔ Pushbuttons with crisp feel
➔ Degree of protection IP 65 and IP 67
➔ Dupe-proof and illuminated emergency stop switches to IEC 60 947-5-5

LUMOTAST 16 PRODUCT PORTFOLIO:

➔ C-LAB pushbutton and C-LAB illuminated pushbutton with customized labeling
➔ Illuminated pushbutton
➔ Pushbutton
➔ Emergency stop
➔ "active/inactive" emergency stop

LUMOTAST 16
C-LAB

→ LUMOTAST 16 C-LAB pushbuttons or illuminated pushbuttons can be configured easily by the customer. This means various front ring colors can be combined with the bezels according to the user's own wishes or design preferences. It also means that customized label symbols or texts can be implemented.

→ **General**	
Model designation	Pushbutton; C-LAB illuminated pushbutton
Collar shape	round
Front ring color	see order pad
→ **Mounting dimensions**	
Collar dimension	23.5 mm
Overall height	22.3 mm
Mounting depth	18.0 mm
Mounting hole	16.2 mm
Key grid	25 x 25 mm
→ **Technical data**	
Fixing	Threaded ring
Torque for threaded ring	max. 0.8 Nm
Terminal on the rear	Male quick-connect terminal 2.8 x 0.5 mm
Contact material	Gold
→ **Electrical data**	
Contact configuration	1 NO
Rated voltage, min.	0.02 V
Rated voltage, max.	35 V
Max. rated voltage as per UL 60 947	30 V AC (42.4 V peak)
Rated current, min.	0.01 mA
Rated current, max.	100 mA
Rated power, max.	1 W
→ **LED electrical data**	
LED operating voltage, min.	10 V DC
LED operating voltage, max.	32 V DC
LED operating current, min.	18 mA
LED operating current, max.	22 mA
LED terminal marking	Anode +, Cathode -
→ **Other details**	
Operating temperature	-25°C to +70°C
Storage temperature	-40°C to +80°C
Operating life (switching operations)	500,000
B10	600,000
Degree of protection, front side	IP65; IP67
ROHS compliant	Yes
REACH compliant	Yes

LUMOTAST 16
EMERGENCY STOP
→ The LUMOTAST 16 emergency stop elements are equipped with up to 3 contacts. This means that, for example, 2 redundant contacts can be earmarked for safety applications, while a signaling contact triggers the position sensing. An additional safety factor for your application. We offer you a further variant with the "active/inactive" emergency stop.
