

### ***Quality policy***

Texim Europe's quality policy is to meet customer demands for electronic components from selected franchises with the correct products, quantities, prices, packaging and lead time. In addition to this Texim Europe aims to provide extra services which add value to the customer. This requires:

- ✓ Excellent relationship with the suppliers
- ✓ Highly motivated and well-trained staff with expert knowledge
- ✓ Close relationships with the customers
- ✓ Reliable and well-working systems and processes
- ✓ Good working conditions with minimal risks for health and safety.

This policy is communicated to all staff by Texim Europe's management. The performance of the company against the quality objectives is reviewed regularly in order to initiate improvements and set new objectives.
