

Topic: Adjustment of the IP code for the RAFIX 22 FS+ compact emergency stop and mushroom pushbutton compact

Dear Sir or Madam,

we would like to inform you that the following article numbers will no longer be specified with IP65 and IP67 in the future, but exclusively with IP65. The reason for this is the ongoing effort required to test individual components, which is disproportionate to the technical benefits of the IPx7 protection rating (protected against temporary immersion). The IPx5 protection rating (protected against water jets from any angle) according to DIN EN 60529 will continue to be guaranteed.

Article number	Description	IP code until now	IP code in the future
1.30.273.311/2300	<u>RAFIX 22 FS+, compact emergency stop, illuminated, reset by rotating, Mushroom head red, illuminable</u>	IP65 & IP67	IP65
1.30.276.361/2200	<u>RAFIX 22 FS+, mushroom pushbutton compact, illuminated, latching, Mushroom head red</u>	IP65 & IP67	IP65
